

Not an ordinary agency, Quantity is not Quality!

BEAR help students to admit into TOP-500 universities world-wide!

At BEAR, we understand that renowned institutions look for 3 priority numbers (GPA, TOEFL/IELTS, SAT/ACT/GRE/GMAT) and written submissions (SOP, CV, LOR). We will assist students in planning and editing their statement of purpose, cover letter and highly craft their resume to the best selling point. Ultimately, BEAR students will stand out in the crowd of applicants. Each education consultant from BEAR accepts only 20 students yearly, allowing us to serve you with top quality service and specially tailored portfolios, helping you achieve your dream abroad.

At BEAR, students are not simply a profile, as our team truly wishes for our students to be successful. At BEAR, we know each student applicant's name, interests, passion, and skills. Naturally, this also means if we see that studying abroad may not be student's best option, we will not hesitate to communicate that with the students.

#SINCERE

At BEAR, we will customize student applications based on their interests and skills. Forced recommendation will not exist, instead we will provide our experience and suggestions, allowing the student to make the ultimate decision.

#ADVICES

When it comes to choosing future institution for our students, we will provide students with the most sincere suggestions and advices.
